

- Step 1. Print the card and cut out the outside box along the solid line. Do not cut along the dashed lines -- these lines are where you will fold the paper.
- Step 2. Use a craft knife to cut the solid outline of the heart. Do not cut where the line is broken on either side of the heart.
- Step 3. Fold the card horizontally (away from you). Carefully pinch the heart along the dotted line to make a crease away from you. Now, fold the card again vertically towards you while carefully making sure the heart folds in the opposite direction along the crease. This creates the pop-out effect.
- Step 4. Have your kids write a special note on the inside of the card!
